

HV Cable Puller - Wind UK

Are you an experienced HV Cable Puller with SGRE offshore wind turbine experience looking for your next long-term project?

The green transition is accelerating, and we are expanding our team to support the growing demand within the wind industry. We work closely with our clients on projects worldwide and are currently looking for skilled professionals to join an upcoming project in the UK.

We are looking for experienced HV Cable Pullers for a **12-month contract** starting in August 2026. The project is based in **Middlesbrough** (Seaton – Able Yard) and is carried out on a **2 weeks on / 2 weeks off rotation**, working 12-hour shifts.

Your primary tasks will be

- Perform HV cable pulling on SGRE wind turbine generators
- Work as part of a team to ensure the safe handling and pulling of cables

Your profile

- Proven experience as HV Cable Puller on SGRE offshore WTG
- Ability to be fully available for a 12-month contract from August 2026
- Must be a UK citizen with the right to work in the UK
- Strong focus on safety and teamwork
- Able to communicate professionally in English (minimum B1/B2 level)
- Ready to start training and take on assignments as opportunities arise

What we offer

At DELPRO, you will become part of a company with high ambitions and a strong focus on safety, quality and collaboration. We offer a working environment built on flexibility, trust and continuous development, with the opportunity to be part of the growing wind industry.

Apply now

If you have the required SGRE experience and are **available from August 2026**, we would like to hear from you.

Please forward your CV with certificates today using the *Apply* link below.

You are welcome to contact Area Manager UK, Graeme Pickersgill at grp@delpro.dk, if you have any questions.
